

## Multi-Use Wire Basket

=

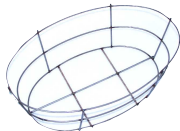

**“Make grave blankets or hanging baskets with the same form!”** One of the fastest, simplest ways to make a grave blanket. It's done by inserting evergreen branches thru the basket from opposite ends. Place a big bow with tails in the center. (finished size from 3-6' depending on bough length). **Easy to stack and transport. OR** turn it over, add **foam**, insert fresh greens and a handle (see below). **8" round** (finished size up to 24" tall). *If you are using the wire basket as a basket, tip it over and punch the bottom center with a hammer so it doesn't rock when standing.*

Add a handle and greens to create this basket.
